MOAZZAM ALI

HYBRID DATA SCIENTIST AND FRONT END DEVELOPER

CONTACT

- 📞 03224066958
- ✉️ mah.mac220@gmail.com
- 📍 364 G Khayaban e amin Lahore
- 🌐 www.moazzamaliportfolio.netlify.app/public

EDUCATION

2018-2020
BAHRIA UNIVERSITY FSD
- Matriculation in Computer Sciences

2020-2022
FORMAN CHRISTIN CLG
- Intermediate in Computer Sciences

2023-Present
VIRTUAL UNIVERSITY
- Bachelors in Computer Science

TECHNICAL STACK

- Front End Development
- Wordpress Development
- Tailwind & React
- Alpine JS & Mongo DB
- Data Scientist
- Python Programming
- Node Js
- SKLearn & Tensorflow
- CNN & RNN
- Data Visualization (Matplot)
- Data Deal (Pandas & Numpy)
- Data Scraping

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Deutch (Beginner)

SOFT SKILLS

- Fast Learner
- Good Communication
- Leadership
- Project Management
- Problem Solving
- Time Management

PROFILE

Dynamic and results-oriented Data Scientist with a passion for extracting actionable insights from complex datasets. Proficient in leveraging advanced statistical techniques, machine learning algorithms, and programming skills to drive data-driven decision-making.

WORK HISTORY (INTERSHIPS + TRAINING)

Front End Developer (BW Logics) — OCT 2022-MAR 2023
Develop and Learning Front End User Interfaces, Deployment on AWS, HTML CSS JS Mastery. Experience in reactj s & tailwind css. Worked in multinational projects

Front End Developer (Candidate Global) — MAR 2022-AUG 2023
Working with real time front end projects. Development and Deployment. Github and Git. Company Web Services. React and Tailwind Development for company components.

DATA SCIENTIST (SPARK FOUNDATION) — SEP 2023-DEC 2023
Learning the core of Programming in Python. Developed Interst in Business Analytics and capturing insight. Observing and working with large dataset. Did many projects on Kaggle. Directory is linked in Portfolio

DATA SCIENTIST (MCDONALDS) — SEP 2024-NOV 2024
Enrolled and completed the business analytics and Data Science Intership at Mcdonalds. It helps me alot to understant what real world projects in Data Science looks alike. Selection & Completion Certified.

PERSONAL PROJECT (FRONTEND & DS)

Kaggle Directory   Github   Portfolio

Real Time Web -Application — FRONT END DEVELOPMENT
Developing Time Series for business Future Prediction and getting fruitful results from business insight . Project is linked in kaggle directory.

CNN Image Clasification (dog vs cat) — DATA SCIENTIST
Working with Convolutional Neural Network project for improving my grip on ANN & deep neural networks. Preprocessing image data and augmenting images. Project is linked in kaggle directory.

Spam Classifier using RNN Tehniques — DATA SCIENTIST
Building RNN neural network for real life working of some ML models. It helps me understanding how Algorithms deals with bag of data and predict the correct answer.

Movies Recommendation System — DATA SCIENTIST
Drama or TV serial Applications and web apps use the algorithm Clustering to make recommendation system. It was fascinating for me to work with real netflix dataset and made a system like that.

CERTIFICATIONS

Front End Development - FreeCodeCamp	15 JANUARY 2023
Data Analysis (python) - FreeCodeCamp	30 SEPTERMBER 2023
Machine Learning - FreeCodeCamp	17 SEPTERMBER 2023
JavaScript Master - FreeCodeCamp	8 NOVEMBER 2022
Selection Certificate - Spark Foundation	11 JANUARY 2024
Data Scientist Internship - Mcdonalds	16 NOV 2024

AWARDS/ HONORS

International Kangroo Mathematics Competition — 9 DECEMBER 2019
Bahria Foundation College FSD
Rank: **Bronze**
Participant in the competition
